CALL FOR PAPERS
SPECIAL SESSION ON

Special Session on "Energy Management System"

for CODIT'17
April 5-7, 2017 – Barcelona, Spain

Session Co-Chairs :
Dr. HDR. Moussa Boukhnifer, ESTACA of Paris, France
Dr. Nassim Rizoug, ESTACA of Laval, France

Session description

This special session deals with the problem of energy management system EMS in hybrid system. Indeed, energy management strategies control the power flow between sources and load in hybrid system (VEH, Smart Grid, Avionic). So we must take into count many parameters like sizing, design and control in order to ensure a good performance of energy management system.

The goal is to invite original articles that address state-of-the-art researches and developments as well as future trends in (but not limited to) the following topics of interest in energy management system and control :

1. Modelling and characterization of Fuel Cells, Battery, Supercapacitor…
2. Energy management system
3. Fault detection and diagnosis for renewable energy systems
4. Fault tolerant design of energy management system

SUBMISSION
Please submit your full paper choosing the right Special Session (**24-Special Session: Energy management system**) on the EasyChair for CoDIT'17 website:
https://easychair.org/conferences/?conf=codit17
All papers must be written in English and should describe original work. The length of the paper is limited to a maximum of 6 pages (in the standard IEEE conference double column format).

IIMPORTANT DATES
January 4, 2017: deadline for paper submission
February 2, 2017: notification of acceptance/reject
February 26, 2017: deadline for final paper and registration.
